

# UNLOCK ULIP TREASURES

Do not underestimate your **ULIP Plans**. These are actually treasures to be unlocked, just discover the key that lies within you.

Once you invest in an ULIP and choose EQUITY option, you are in fact investing in stock market through professional hands. **Invest in CHEAP market, keep patience and sell in an EXPENSIVE market is the MANTRA for wealth creation.** You can effectively implement this MANTRA in the ULIP.

Every ULIP has at least two features "CHOICE OF FUNDS" and "SWITCH FACILITY". Choice of funds allows you to choose between EQUITY and DEBT fund options. SWITCH facility allows you to shift the investment from equity to Debt and vice versa.

What you just need is to understand the indicators as to when the stock market is considered CHEAP and EXPENSIVE. These indicators have been discovered and are available in our book "**Right Attitude to High Altitude - A 3D Concept to Win Stock Market**".

These indicators are now considered authentic because Jan 2008 stock market crash and its upward journey from March 2009 have both occurred after touching these indicators. Buy this book and learn to switch the investments between EQUITY and DEBT keeping patience in the intervening period. This is what requires unlocking ULIP treasures.

Alternatively you can also register your ULIP with us when we will suggest you such shifting at appropriate times. [Click here to download ULIP registration form.](#)
